### **PLEASE NOTE:**

1- In the column entitled “time used”, we have listed the time it actually takes to complete the seminar in the column next to it. **We need that full amount of time for the seminar.** If extra music, skits, announcements, etc, are going to be added to the meeting times, we ask that time for these is *added* to this schedule, *not* included in it.

2 - We have a “second round” series of six seminars that can be presented at a later date, and these augment the sessions above.
